St. Pierre & Miquelon

The James R. Taylor collections

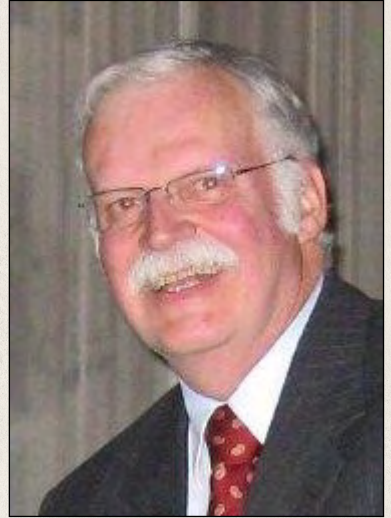

Featuring the comprehensive collections formed by James R. Taylor, prolific author and authority on St. Pierre & Miquelon philately. Many years of diligent collecting and researching have culminated in several gold-medal awards for his wide-ranging collections; from traditional 8-frame to one-frame exhibits pertaining to 20th century definitive series.

Lot 1 - 142

St. Pierre & Miquelon: The enclave within Canadian waters

The tri-colour flag of the French Republic makes a flapping sound as it flies proudly in the stiff wind over the tiny island enclave that is practically surrounded by Canadian territorial waters. For philatelists, the French Territory of St. Pierre Miquelon has a legacy of rare pre-stamp folded letters, shipwrecks, lighthouses, liquor bootleggers, wartime intrigue, and appealing stamp issues. The first use of postage stamps, the "classics," date from 1859. The French Colonial *Eagles*, imperforate stamps of France and the *Colonies Francaise* series particularly appealed to me and are very collectable—a challenge to assemble properly postmarked at St. Pierre or on cover. From 1885 through 1891, stamps were overprinted with the country name or initials in several enticing and scarce old-time sets and limited trial essays.

The colonial "Navigation and Commerce - Tablet" issue was released in 1892, inscribed with the country name in common with the other French Colonies. A special imperforate printing on Bristol card for the 1900 Paris Fair is exceptional. The first pictorial set of 1909 featured local maritime scenes in a colourful long and long-lived series that stretched to 43 values, including new values, colour changes and surcharges that continued into the 1930s. UPU specimens are outstanding and seldom encountered.

The Colony prospered during 1920-1932, *Les Temps de la Fraude*, the time of liquor smuggling. Paul Talbot notes, "Virtually all of the whiskey that bootleggers smuggled into America's east coast ports from *Rumrunner's Row* spent time in warehouses on a small group of islands located off Newfoundland. A little known outpost of the French Empire found itself, by virtue of geography, quenching America's thirst for spirits during prohibition." The repeal of prohibition in 1933 threw the Colony into a depression.

The islands participated in the French Colonial 1931, 1937 and 1939 Exposition issues. The 1934 set commemorating the important arrival in 1534 of Jacques Cartier in St. Pierre reflected the poor economic circumstances in the Colony - overprints were used rather than new stamp designs. The 1940 fall of France set the stage for the struggle for control of the Colony. De Gaulle's Free French Naval Forces landed troops at St. Pierre on Christmas Eve, 1941. The existing stamp stocks were overprinted to signify the abrupt change in administration of the islands. New definitive and airmail stamps, printed in London, were inscribed *France Libre*.

In the 1950s, attractive engraved commemoratives and airmails were released in small quantities. The production of St. Pierre and Miquelon's stamps for the past sixty years has been of exceptional quality, highly prized by collectors and exhibitors. New Euro currency stamps were introduced in 2002. St. Pierre is the only territory in North America to use European money.

PRINCE EDWARD ISLAND

AN EXTREMELY RARE AND PARTICULARLY CHOICE
SIX PENCE BISECT COVER TO NEW BRUNSWICK

- 340 1871 (June 6) Blue cover in unusually choice condition mailed from Summerside to Richibucto, New Brunswick, bearing a well centered diagonally bisected 6p yellow green, perf 11½-12, faint corner crease from placement, clearly tied by oval grid cancellation, clear Summerside / P.E. Island JUN 6 large circular dispatch at left; pays the Colonial 3p letter rate to New Brunswick (then part of Canada), partially legible Shediac and clear Kingston Kent receiver backstamps. A very attractive example of this immensely rare bisect usage and especially desirable in well-above average condition, VF (Unitrade 7c cat. \$9,000) **Est. 5,000.00+**

Expertization: clear 1992 BPA certificate

The great rarity of a bisected 6 pence is clearly demonstrated by the fact that James Lehr, author of "The Postage Stamps and Cancellations of Prince Edward Island 1814-1873" does not record any usage of this bisect on cover (see page 69; table 9-1). We are aware of two other single bisect 6 pence covers; one with minor flaw was sold in our Highlands Part Three, June 2019; Lot 78 - realized \$6,000 hammer.

Provenance: George Ludlow Lee, H.R. Harmer Inc., December 1963; Lot 356

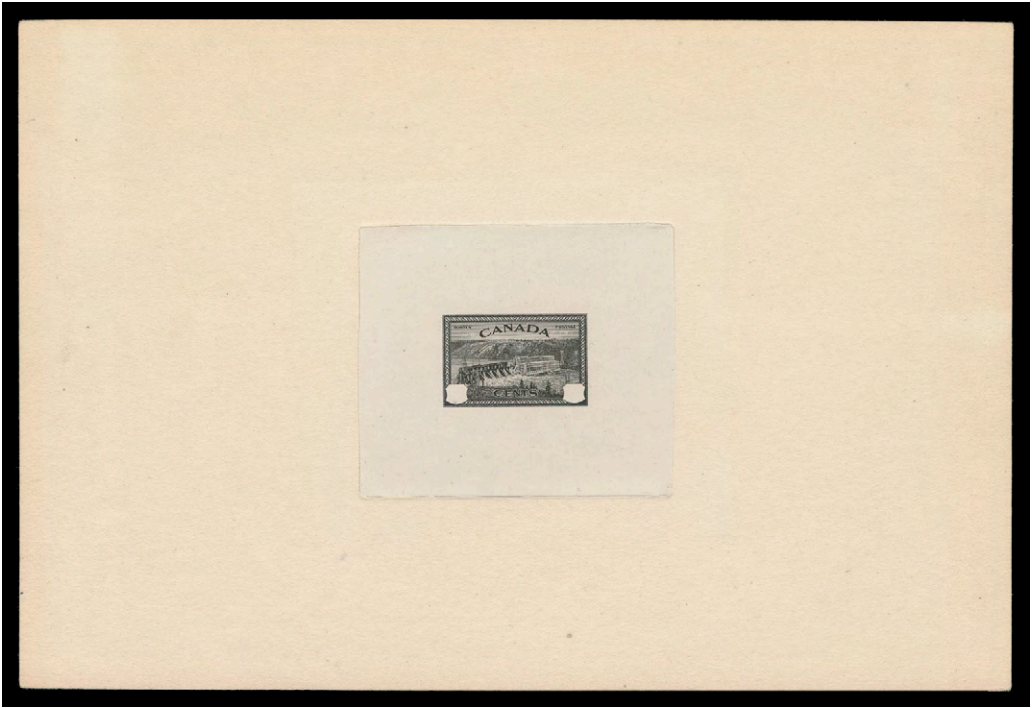

- 603 ◎ 249 variety, 1942 1c Green KGVI War Effort An exceedingly rare horizontal pair, completely imperforate vertically between (no trace of blind perfs), natural straight edge at foot as originated from misguillotined booklet panes, Arvida, P.Q. postmark; hint of a crease between stamps and small shallow thin. Despite these minor imperfections, this is the only such perforation error we recall seeing on this stamp. A striking KGVI error ideal for a serious collection, VF; 1987 Greene Foundation cert. **Est. 1,500.00+**

- 604 ★ 257a, 1942 10c Brown Parliament Buildings, War Effort An exceedingly rare mint imperforate Upper Left Plate 1 block of four, lightly hinged in top selvedge and minute gum thin on top left stamp, of no importance for this beautiful plate block; one of only three known imperforate blocks (the other two are in complete sets), VF+ LH **Est. 3,000.00+**

Indicative of its rarity is that the One dollar is unlisted in Minuse & Pratt handbook - only the 8c and 50c Peace series are listed. Furthermore, no die proofs of the Peace Issue were present in the 1990 American Bank Note Company archives auction.

After extensive searching in nearby post offices and additional extensive coverage by Winnipeg stamp dealer Kasimir Bileski, only one more used single was ever found.

EXTENSION OF TIME

9. When an opinion from an acceptable authority is necessary the buyer must request an extension from Eastern Auctions Ltd. prior to the auction. The buyer must pay for the lot in full (a refund will be issued in the event of an unfavourable opinion). Eastern Auctions Ltd. will then submit the lot on the buyer's behalf to one of the following:
- Vincent Greene Foundation (Canada and BNA)
 - Philatelic Foundation (USA)
 - BPA or RPSL (British Commonwealth)
 - Sergio Sismondo (World except USA)

EXPENSES OF CERTIFICATION

10. Expenses shall be borne by the buyer except where the lot is other than as described and is returned within the conditions set forth above. Our responsibility is expressly limited to:
- (a) The actual cost of the opinion if up to \$50.00 or less, or
 - (b) The cost of the opinion up to 5% of the sale price but not exceeding a maximum of \$100.00.
 - (c) We are not responsible for expenses on the return of any lot.

CONDITION

The various grading of stamps are in order; **Extremely Fine; Very Fine; Fine and Very Good**. In the case of sets, large blocks, sheets, etc., the condition quoted represents the average and quality above and below this standard can be expected. Minor perf separation can be expected on larger multiples.

Mixed condition: in large lots, a range of condition can be expected, from small faults to Very Fine.

GUM

NH	Never Hinged – with full original gum in Post Office state and unmounted.
LH	Lightly Hinged – with full original gum showing some evidence of a previous hinge.
OG	Original gum – showing some evidence of a previous hinge, a portion of which may still be present.
Part OG	Part original gum.
Unused	Unused without original gum, or regummed.
Ungummed	Without gum as issued.

A NOTE ON HINGING

Bidders are reminded that, in accordance with industry standards, hinging is not described with respect to used stamps or stamps and proofs that were printed without gum. Hinging on these items is irrelevant to their condition and value. If hinging is important to you in such cases, please contact us before bidding and request further information. **We will not accept the return of used stamps or ungummed items due to hinging.**

Hinging on mint stamps is always disclosed, however, never hinged status should not be expected unless specifically stated “never hinged” or “NH”.

ESTIMATED VALUES

If an estimated cash value is given, it is shown in the description and always indicated by the abbreviation “Est.”. It is used where the lot is large or where the actual value has little relation to the catalogue price. **It represents the auctioneer’s appraisal of the true CASH value of a lot and the figure is invariably close to the actual realization.** It is useless for mail bidders to list any bids that are only a low proportion of such estimates.
