2888★  **Australian Commemoratives: 1927/1936** About 100 collector prepared pages with a display pattern of mint, used, plate blocks, gutter blocks and OS perfins. Generally, the mint are a mix of (mostly) hinged but some are NH, the plate blocks are often hinged, usually in the selvage and some gutter blocks have been folded. Scott (and Brusden White for the unlisted Scott items) was used to determine the approx. \$3,000 catalogue value. All items are in mounts on informative collector prepared pages. Some issues have each plate (sometimes up to 8) represented with a plate block of four and the airmails of the period are included. There will be the odd perf fault - obviously faulty were considered in estimate. We believe this to be excellent value at the estimate and is clearly for the serious. F-VF
