Let me begin by thanking all of you who ordered from Selected Rarities IV. I hope that you will enjoy our latest offering. Among the many desirable items available is a Newfoundland shilling orange, a full ABN trade sample sheet, elusive proofs and spectacular multiples. Perhaps you will find something of interest.

Financial and currency markets have been very volatile over the past few weeks and I have received many calls on how all of this is affecting stamps. I am pleased to report that the stamp market has remained steady. In fact, the stamp market is continuing to increase in strength. This is not really a surprise. Historically stamps have on many occasions provided protection from uncertain times, including falling stock markets and inflation.

We are constantly buying better stamps and specialized collections to satisfy the growing demands of our clients. If you have a collection for sale please contact me.

Price \$9,500.00

Note: On the issued stamp two plates were made; Plate Number 1 (prepared in June 1898 and re-entered December 1913) of fifty stamps (5x10) and Plate Number 2 (prepared August 1920) of a hundred stamps (10x10), which was guillotined into sheets of 50.
