Our last catalogue, which we also promoted at the London 2010 show, was very well received. Thanks to all of you who found something new for your collections.

Finding new material for our clients is always difficult and we are continually following up leads and searching for specialized proofs, stamps and covers to add to our stock. Specialized collections and individual rarities are always of interest, so if you have something for sale, please contact me.

Here is a short summary of the items offered in Selected Rarities IX:
I am pleased to offer some very nice British Columbia, including a rare used pair of the ten cents imperforate (Items 801 to 805). In New Brunswick you will find a spectacular set of plate proof complete sheets of the Cents Issue, as well as part perforate blocks of both the 1 c and 2 c values. An extremely rare complete set of Pence Issue die proofs is the star of the Nova Scotia offerings; so few exist that a maximum of only two other sets could be assembled. Several other nice singles and blocks, as well as a lovely set of proof sheets round out the section. Check out Item 824 for a rare Newfoundland classic and then study the "big three" of Newfoundland airmails. Items 830 to 832 comprise all three of the rare provisional airmails - Hawker, de Pinedo and Columbia.

In the Canada offerings an unused Scott \#10 is featured (Item 838). Less than ten mint or unused examples are known. Some specialized 15c Large Queens will interest the collector of this issue (Items 845 to 851 ). A very rare complete set of Leaf Issue die proofs is worthy of special mention (Item 858), being only the second set I have ever handled. Some choice mint singles, multiples and major errors take us through to the back of the book section. Here you will find choice semi-official airmails and rare postage due stamps with marginal lathework. A stunning \$2.00 bill stamp with inverted centre concludes this catalogue.

Here is a quotation from John Ruskin you may like, written a century and a half ago in 1860, but still so relevant today: "It is unwise to pay too much, but it is also unwise to pay too little. When you pay too much, you lose a little money; that is all. When you pay too little, you sometimes lose everything because the thing you bought is incapable of doing the thing you bought it to do."

I hope that you will enjoy the catalogue.

## Item 812

1851-1853 One penny Queen Victoria to One shilling Heraldic, a spectacular complete set of die proofs of all four different denominations, engraved, in black on card mounted india paper; showing the characteristic uncleared framelines extending into all of the corner value tablets. - One penny (six examples; two of which are in the Royal Collection)
- Three pence (five examples according to Lowe, four according to Argenti)

An exceedingly rare set. After exhaustive research we were surprised to discover that the famous collections of Maurice Burrus, Dale-Lichtenstein, Alfred Caspary and Sir Gawaine Baillie all lacked a set (or even one of the individual values).
