The staff and I would like to send you our best wishes. Who would have though a year ago that we would be in the middle of an ongoing pandemic? Travel outside of the Atlantic Provinces has become a thing of the past for now. Nevertheless, we have been fortunate in our region with very few cases reported.

Many of my dealer friends have reported that there has been increasing interest as the months go by. I believe that this will have a lasting effect in our industry. Many collectors have returned to the fold or are pursuing a new interest.

We are pleased to present another Selected Rarities catalogue, with another outstanding selection of items. Among my favourites are the New Brunswick $1 \phi$ Locomotive cover (3804), the Newfoundland Caribou Issue master die proof (3819), a unique de Pinedo flight cover (3825), the mint Canada six penny perforated (3832), the 12¢ Large Queen Block (3841), a Small Queen cover to Ceylon (3851), the 50¢ Admiral lathework block (3873) and the $\$ 1.00$ Totem Pole production file (3885).

We are actively and aggressively buying rare stamps and specialized collections. Please let us know if you are contemplating selling a portion of your collection.

Remember that payment terms to suit your budget are available as always. We also have hundreds of other specialized items in stock so if you are looking for something special please let us know. In the meantime, stay healthy and stay safe.

Sincerely,

## Gary J. Lyon

## Item 3803

1871 (early August) Wells, Fargo \& Co. printed frank on U.S. $6 c$ dark red on white entire from Victoria, V.I. to Alton, England, opening tear at top; showing "For Great Britain and Ireland" two-line handstamp in blue as per Postal Convention (July 1,1870) and same-ink Wells Fargo \& Co. / Victoria cancel with unclear August date - without the normal colonial postage (sold on that merit) possibly because British Columbia had joined Confederation on July 20, 1871 and was awaiting shipment of Canadian stamps (went on sale August 15). An interesting interlude which may well explain the lack of BC / Canadian stamps; the U.S. 6c postage paid the reduced rate (previously 12c) from California to the U.K., partial New York Paid All circular in transit in red and clear Alton AU 3071 backstamp. A neat interim period cover mailed shortly after Confederation but before Canadian stamps were available and rates were applied, Fine to Very Fine; ex. Couple minor aesthetic repairs to cover. A very rare pre-UPU cover to New South Wales, Fine (Unitrade 35d, 38a)

Postal rates to the Australian States were notoriously confusing to Postmasters. For example, in 1877 the rate to New South Wales was 15c per half ounce, via the US. However, mail to four other Australian Colonies was 8 c per half ounce. Additionally, the postal rate at that time to all Australian States via Southampton, UK as of October 1876 was 16 c per half ounce. Letters such as this example, were often sent with extra postage in the event of forwarding by a different route.
