The Hugh Westgate 1898 Map Stamp Collection

We are indeed fortunate to bring you the Hugh Westgate collection of the 1898 Map Stamp. Formed over many years and including the entire production file from the American Bank Note Company Archives, this is truly a spectacular collection with many key items that have been unavailable for decades. Much of the primary collection was exhibited in recent years, winning the following awards:

- | | | |
|--------|--------------------------|---------------------------|
| • 2009 | Portland PIPEX | Vermeil, Best BNA Exhibit |
| • 2009 | APS Pittsburgh | Gold |
| • 2010 | BNAPS Victoria | Gold |
| • 2010 | APS Regional Minneapolis | Gold |

Imperial Penny Postage played a significant role in establishing uniform postal rates and subsequently increased postal communication within the whole British Empire; an historic and important event. Postmaster General Mulock devoted a great deal of time to overseeing the production of a special stamp that would be distinctive in appearance and design. The stamp itself was the first in the entire world to be printed in three colours using two different printing processes (gravure and typography).

Specialists in proofs and essays will delight in the large offering of these items. Progressive, hybrid and completed die proofs as well as original essays are included as are plate proofs showing various stages of printing. A unique complete sheet of proofs showing oceans and empire represents the total available supply.

Issued stamps are well represented of course, including the only known set of full sheets of all four issued plate numbers. You will also find many lots of mint stamps, and also used with rare multiples and interesting cancellations.

The postal history section is substantial to say the least. Early dates including first day and Christmas Day, multiple rates and unusual destinations abound. Students of this issue will be interested to know that the two covers in existence that were previously thought to be dated December 2 have since been proven to be fake. The earliest known date for a cover is now the official first day, which was December 7.

This auction catalogue was a pleasure to compile; I hope you enjoy it.

HUGH WESTGATE 1898 MAP STAMP COLLECTION

Friday October 21st, 2011
Auction begins at 3:30 pm (AST)

PRELIMINARY MODELS AND ESSAYS

- 201 E Original Artist Watercolour and Handpainted Essays** A magnificent multi-coloured essay showing the initial specifications for the stamp, as requested by Warren Greene, President of the American Bank Note Company (see original document addressed to the company's artists and engravers included in Lot 205); with larger "CANADA POSTAGE" and "XMAS / 1898" located in the Pacific Ocean, different font "2" (the modified right-hand "2" is still affixed into place). The preliminary design measures 240x171mm on a 256x206mm card done in watercolour and additionally handpainted in red and China White in several places.

After further modification (see Lot 205) a reproduced version of the original map was prepared (see Lot 203) with British possessions painted in red, some black paint outlining continents and China White in places. In addition the "XMAS / 1898" in black was subsequently crossed out in pencil. The map was then affixed to the original artist's essay mentioned above. Further changes were prepared by affixing mock-up pieces of "CANADA", "POSTAGE" and denominations "2¢".

Also included is a pencil sketch done by Warren Greene on a large sheet of wove paper (*Illustrated on Website*), annotated at lower right "Size Jubilee Stamp / quantity - 20,000,000" for wanted revisions as outlined in one of the documents previously mentioned. The clincher for a gold-medal award collection, Very Fine

Est. 10,000.00+

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828.

IN OUR OPINION THIS IS THE MOST EXCITING LOT RELATED TO THIS CELEBRATED AND WELL DOCUMENTED STAMP. ONE OF THE HIGHLIGHTS OF THE COLLECTION.

Overlay of above map with mock up imprints & values on top of original essay (Illustrated on Page 4)

WARREN GREENE PRELIMINARY WATERCOLOUR AND SKETCH ESSAY PRESENTED TO POSTMASTER GENERAL MULOCK

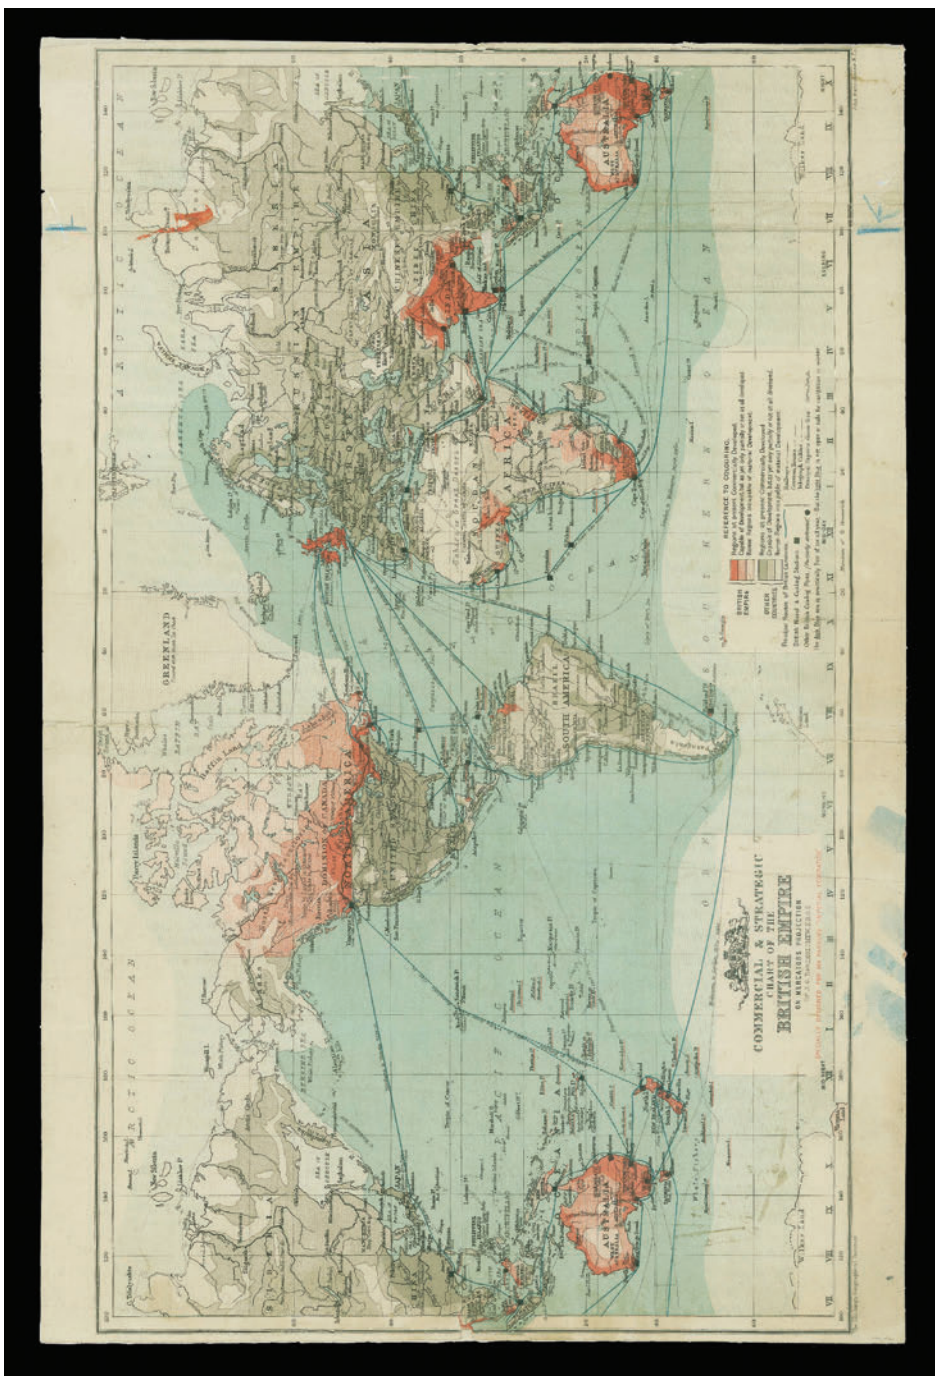

- 202 E** Original watercolour and pencil sketch essay on rough surfaced card, crease at centre mentioned for the record, measuring 195x170mm. This was a preliminary attempt to get down the ideas for the proposed stamp, and was prepared by Warren L. Greene in the presence of Postmaster General Mulock (referred to in his letter in lot 206). Various components of the final design of the issued stamp are recognizable in this essay. Additional pencil "XMAS" and "1898" at top and showing portion of "2" value tablet drawn underneath, annotated in blue crayon "don't cut off end of S. America". A marvelous one-of-a-kind essay, Very Fine **Est. 5,000.00+**

Warren L. Greene started as an apprentice engraver with the American Bank Note Company in New York in 1882, gradually working his way into management. In 1887, an Ottawa office of the ABN Co. was opened and on June 7, 1897 a Canadian Company was formed by an act of Parliament, with Mr. Greene as the CEO and Mr. Major as the Production Manager.

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828.

A STUNNING AND MOST IMPRESSIVE ESSAY, WITHOUT QUESTION ONE OF THE MOST IMPORTANT PIECES RELATED TO THE 1898 MAP ISSUE.

**ORIGINAL MERCATORS PROJECTION MAP USED AS A MODEL
FOR THE IMPERIAL POSTAGE STAMP**

203 Printed on linen by J.G. Bartholomew & Company based on Mercators projection and designed for the Edinburgh Geographical Institute. The map was provided to the engravers including Charles Skinner. Australia is shown twice and blue guidelines have been added as the engravers needed to cut the identical portion off. Mentioned for the record some usual light creasing but overall in a nice state of preservation. **Est. 300.00+**

Note: There are some watercolour brush strokes in shades of blue in lower margin, likely an attempt to match the ocean's colour on the map.

POSTMASTER GENERAL PROOF DOCUMENT

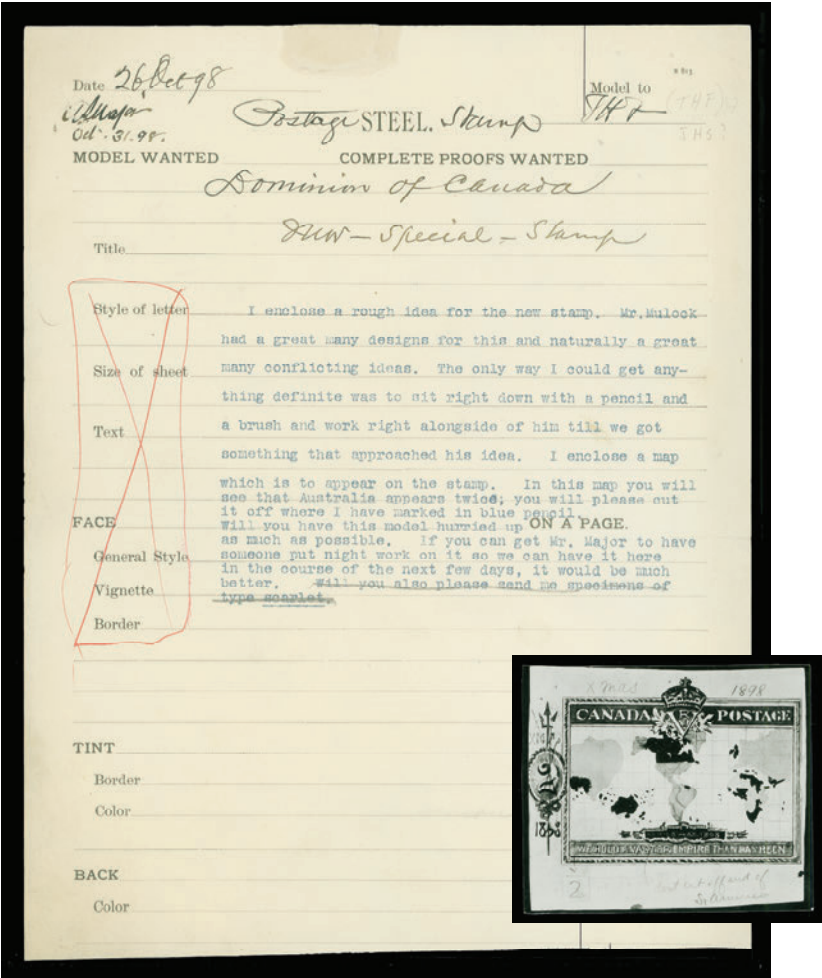

204

Embossed letterhead with Coat of Arms in violet at left and albino "Private Secretary's Office" at right; with mounted set of three progressive plate proofs and handwritten observations: "The Canadian stamp known as "The Imperial Penny Stamp" sometimes known as "The Map Stamp". This stamp requires three different impressions as follows" and concludes with "These are really not stamps, never having been gummed or perforated, but are intended merely to show the process of printing. They are the only stamps in the world requiring three distinct printings". The letter closes "This is the completed stamp" with an actual alongside. A very important document confirming the printing process and order of the typographed colours applied to the stamp - a highly desirable item for enhancing a serious collection. ex. *Fred Fawn* (2007)

Est. 5,000.00

DOCUMENTS

205 Four pertinent letters related to the design of the Imperial Penny Postage Stamp: the first dated "30 Sept 98" mentioning the desire of having a stamp "larger than their Jubilee... 2 Hemispheres... 2 or 3 colours... British possessions in red". Another letter probably sent from Warren Greene to Mr. Major, the production manager of the same office, describing the special stamp "to commemorate the inauguration of a two cent letter rate the Postmaster General desires a special stamp..." The last two letters are from Warren Greene to the ABN Co. Artists-Engravers mentioning the alterations to be made on the original essay (see Lot 202), with notable changes such as "Take out the V.R.I.", also "the '2' in the right and left hand lower corners to be the same style and to have the character denoting cents, after it", "Be careful that Egypt does not appear as a British possession." The other letter mentions "Border around stamp is to represent a rope", also "Back of the monogram V.R.I. on one side put a few maple leaves and on the other a few oak leaves", etc. Some folds and faults to be expected and are of no importance for these important documents. Also includes six photo reproduction of rejected essays for the intended 1898 Map stamp. Ideal for enhancing any advanced collection of the 1898 Imperial Penny Postage. (Illustrated on Website) Est. 750.00+

206 Original Letter from Mr. Greene Dated "26 Oct 98" with title "Postage Steel Stamp / Dominion of Canada / New Special Stamp and typewritten "I enclose a rough idea for the new stamp. Mr. Mulock had a great many designs for this and naturally a great many conflicting ideas. The only way I could get anything definite was to sit right down with a pencil and a brush and work right alongside of him till we got something that approached his idea. I enclose a map which is to appear on the stamp. In this map you will see that Australia appears twice; you will please cut it off where I have marked in blue pencil. Will you have this model hurried up as much as possible. If you can get Mr. Major to have someone put night work on it so we can have it here in the course of the next few days, it would be much better."; signed by Major at upper left corner of the letter. Enclosed is a photographic essay on glossy surfaced card (listed in Minuse & Pratt as #85E-D). An important document with historical significance. Est. 750.00+

MEMO TO THE DEPARTMENT CIRCULAR

207

Two days following the distribution of the Department Circular (shown in Appendix K of "A Canadian Postal History 1897-1911" by Arfken and Pawluk), this MEMO was issued (printed "2,000 3-12-98") titled "Post Office Department, Canada / Postage Stamp Branch, Ottawa, December, 1898." hastily mailed to warn postmasters that: "the Postmaster must distinctly understand and warn purchasers to the effect that the inter-Imperial 2c rate does not become operative until the 25th December instant (Christmas Day)". A lower left sheet corner mint single has been affixed at top left with handwritten note attached at lower left, signed Fred Jarrett, which he identified the stamp as from Plate 1, Position 91. A very interesting document related to the effect of the new Imperial Penny Postage rate. *ex. Dale-Lichtenstein, H.R. Harmer Inc., January 1970, Sale 7; Lot 1510* **Est. 300.00**

A FABULOUS HANDPAINTED, HAND DRAWN AND ENGRAVED PROGRESSIVE DIE PROOF

- 208 P** A spectacular progressive die proof sunk directly on thick card measuring 132x85mm with "AMERICAN BANK NOTE CO., NEW YORK" printed in orange at foot. The oceans, continents and British possessions have all been hand painted, and a four colour palette used for experimenting with shades of the oceans can be seen at upper right. Various characteristics of the issued stamp are visible such as the black engraving of inscription and value tablets, the outline of the continents, etc.

Major differences from the finished die proofs include: 1) details of the surrounding "cables" (which have been hand drawn in pencil with a partial outline in pen); 2) the continents are unshaded with clear longitude and latitude lines all over the map; 3) the imprint "XMAS 1898" is noticeably different in font, size and location within the design; 4) numerous other minor differences can also be seen. Very Fine

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828.

AN OUTSTANDING PROOF – THE FIRST ONE WE HAVE SEEN AND MOST LIKELY UNIQUE.

- 209 P** Final approved engraved die proof without die number, printed in black on india paper, measuring 76x63mm, small piece of card affixed underneath at upper right, insignificant diagonal crease away from design, pencil notation "November 21-1898" and signed "Engraved by Charles Skinner", red pen signature at lower left (unknown to us) and further signed in pencil by Warren L. Greene and dated "21/11/98" at lower right; small cross guidelines at sides of the design. A choice and visually striking die proof, Very Fine. **Est. 5,000.00+**

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828

AN EXCEPTIONAL AND UNIQUE SIGNED DIE PROOF; IN OUR OPINION THE MOST DESIRABLE FINISHED DIE PROOF OF THE 1898 MAP ISSUE

- 210 P** Large engraved die proof printed directly on white card (0.011" thick) measuring 72x62mm, showing small cross guidelines on each side and die "F-139½" number above design. An outstanding large die proof, very rare as most of the few existing die proofs are stamp-size, Extremely Fine **Est. 5,000.00+**

Note: A similar die proof, slightly smaller in size (70x60mm) and with a stain spot sold in November 2007 for US\$8,325.

A SUPERB SHOWPIECE, AFTER THOROUGH RESEARCH ON COMPARABLE PROOFS, WE ARE CONFIDENT THIS IS THE FINEST OF ALL DIE PROOFS PRINTED IN BLACK ON CARD.

TYPOGRAPHED PLATE PROOF SHEETS

- 211 P Two different typographed "working" plate proof sheets of eight; the first is the "Blue Ocean Plate" and shows a marginal crayon notation "To Machine Dept Nov 28 / 98 Canada Post Card Blue Plate". The other sheet is the "Red Colonies Plate" with crayon annotation in margin "Canada Universal Post Card To Machine Shop Nov 28 / 98 Red Plate" at foot. Both with couple filing holes at corners, of no importance. Both plate proof sheets are printed in black with uncleared surrounding black borders on glazed wove paper. An astonishing pair of proof sheets for a proposed Universal Imperial Penny Postage postal card, which was never issued. An absolute showpiece for a Postal Stationery collection or Map Stamp collection alike, VF **Est. 3,500.00+**

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828.

- 212 P** Typographed die proof for the red colour (British Empire), printed in black on glazed wove paper measuring 98x73mm, with uncleared black surrounding border, this proof was pulled during production to check the progress of the engraving on the die; couple pinholes in margin at lower right from being attached to another sheet in the working files. To be the best of our knowledge, this proof is UNIQUE, VF; 1991 Greene Foundation cert., ex. *Fred Fawn (2007)* **Est. 2,000.00+**

- 213 P** Typographed die proof for the lavender / blue oceans, printed in black on glazed surfaced wove paper, measuring 85x75mm, with uncleared black surrounding border, identified in accompanying certificate has a "working proof in black" meaning that this proof was pulled during production to check the progress of the engraving on the die; couple pinholes in margin at lower right from being attached to another sheet in the working files. To be the best of our knowledge, this proof is UNIQUE, VF; 1991 Greene Foundation cert. ex. *Fred Fawn (2007)* **Est. 2,000.00+**

HYBRID MULTI-COLOURED DIE PROOF

- 214 P** An exceptional proof with “Golden” Oceans, carefully trimmed around the frame and die sunk on india paper 64x63mm sunk on large card measuring 182x150mm, small mounting mark at top, with die "F-139½" added in crayon (upside down) above stamp design. A very rare coloured die proof of the Map stamp and a wonderful showpiece, VF; ex. *American Bank Note Company Archives Sale, Christie's Robson Lowe, September 13, 1990; part of Lot 1828* **Est. 2,000.00+**

Note: It was customary practice within the printing industry and American Bank Note in particular to make hybrid die proofs of stamps that had more than one colour and/or required more than one press run to complete. Because of the high cost of manufacturing multiple coloured proofs it was much easier to take a finished plate proof and have it sunk on card to make it look like a normal die proof.

- 215 P** Hybrid die proof with blue green oceans, prepared by the ABNC in similar fashion to Lot 214, sunk on large card measuring 94x83mm; proof subsequently hinged back into place, with pencil die "F-139½" number inscribed at lower right; small surface card thin at foot, a very scarce die proof, VF (A similar coloured die proof sold for \$1,200 at auction in 2007.) **Est. 1,000.00**

- 216 P** **Mock Up Die Proofs** Two typographed die proofs, one in red colour only (British Empire) on white glazed surfaced paper and the other in blue only (oceans) on unsurfaced wove paper, placed side by side on portion of kraft paper from the full plate mock up, both have been severed horizontally and hinged back together. In our opinion however, both of these die proofs are unique in private hands. An unusual and interesting item for the specialist. *ex. American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; part of Lot 1828.* **Est. 1,000.00+**

Note: These proofs were salvaged from a deteriorating full plate Mock Up, showing six plates drawn in pencil; interestingly enough only five plates were produced (1 to 5) and only four of these (1, 2, 3, and 5) were used to produce the issued stamps.

PROGRESSIVE PROOFS

Very Fine (Minuse & Pratt #85PX-Ea) **Est. 15,000.00+**

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990, part of Lot 1828

- 223 ★ An attractive positional imperforate mint block of four with plate imprint at lower right, the oceans are in a bright lavender shade, full original gum with minor gum thin at top and a few gum wrinkles, otherwise the lower pair is never hinged, unusual as majority of the imperforates were issued without gum. THE UNISSUED PLATE 4 A MARVELOUS IMPERFORATE BLOCK OF TWENTY-FIVE

AMERICAN BANK NOTE CO. OTTAWA

An elusive imperforate that is rarely seen and a wonderful multiple, ideal for a serious collection, VF **Est. 15,000.00**

Expertization: 1991 Greene Foundation certificate

Provenance: American Bank Note Company Archives, Christie's Robson Lowe, September 13, 1990; Lot 1831; Fred Fawn, November 2007; Lot 1436

**UNIQUE COMPLETE SET OF MINT SHEETS
OF ALL FOUR ISSUED PLATE NUMBERS**

- 235 ★ COMPLETE SET of full sheets of all four issued plate numbers "1", "2", "3" and "5", the latter sheet is UNIQUE. Each sheet has some degree of perf separation from serious to minor, which often has been sensibly reinforced by hinges. Very few other intact sheets of 100 exist in private hands and the key Plate 5 is the ONLY ONE THAT HAS SURVIVED INTACT. Reviewing past "name" sales and important offerings of the 1898 Map Stamp revealed very few intact sheets. An extraordinary opportunity for the sheet collector and specialist alike. *(Illustrated on Page 25-26)* **Est. 10,000.00+**

Plate "1" with bright lavender oceans; hinged in selvage only, leaving all stamps never hinged, most are well centered.

Plate "2" with unusually deep blue oceans; hinge thin on position 4, otherwise hinged in selvage only leaving all stamps never hinged, mostly well centered.

Plate "3" with lavender oceans; minor adherence on two stamps (position 42 & 52), six stamps hinged, remainder are never hinged; stamps reasonably centered to well centered.

Plate "5" with bright blue green oceans; couple pieces of selvage missing, a total of 47 stamps never hinged, overall well centered.

MINT STAMPS

- 236 ★ Plate "1" and Plate "2" mint horizontal pairs; with bright blue and lavender oceans respectively, well centered, hinged at centre, latter with small gum thin on right stamp. A scarce duo ideal for an advanced collection, VF **Est. 400.00+**

- 237 ★ Plate "1" Mint block of four with slight "Muddy Waters" effect, reasonably centered and hinged once in selvage only leaving stamps with full original gum, never hinged; a scarce intact plate numbered multiple, F-VF **Est. 500.00+**

- 238 ★ Plate "2" Horizontal strip of three with deep blue oceans, nicely centered with deep rich colours, hinged in selvage only, stamps never hinged; a scarce and desirable plate numbered multiple, VF
Est. 400.00+
- 239 ★ Balance of mint issues displayed on stockpages and exhibit pages, with a total of 229 stamps; consisting of 80 singles, 16 blocks of four and rest in larger multiples, noted blocks of 8 and 20 showing portion of plate "3", a rejoined plate "5" block of 24, etc. Nice range of ocean shades including the "Muddy Water"; some minor flaws but most are sound, ideal for plating, Fine to Very Fine
(Not Illustrated) Est. 1,500.00

POSTMARKS AND CANCELLATIONS

- 240 ◎ **CDS Cancels** An attractive lot of 128 mostly single stamps showing a wide range of small town postmarks from British Columbia to Nova Scotia, well represented and selected for better (and often scarcer) strikes; a few flaws to be expected but a very challenging group to assemble. A perfect lot for the postmark enthusiast, Fine to Very Fine
Est. 600.00+

2. The highest bidder shall prevail at one advance over the next highest bid. Should a dispute arise between bidders, the decision of the auctioneer as to the successful bidder or the re-offering or resale of the lot in dispute shall rest entirely in the judgment of the auctioneer. **On all lots sold a commission of 15% on the hammer price will be payable by the buyer.** The auctioneer shall regulate the bidding and reserves the right to refuse any bid believed by him not to be made in good faith.
